

## Taraxacum checklist for Somerset

Taxon	GB Red List status	England Red List status	VC5 rare or scarce	VC6 rare or scarce	Hectads present	Notes
<b>s. Celtica</b>						
<i>T. amicomum</i>	LC	[LC]	Scarce	Rare	<b>ST</b> 21, 22, 45	Records not yet on MM and only 1 record so far on DDb (see <i>SANH</i> 163: 271-273 for list of all records)
<i>T. atrocollinum</i>	LC	[LC]	Scarce	Absent	<b>SS</b> 93; <b>ST</b> 03, 21, 22	Records not yet on MM. SS93 record not yet on DDb (see <i>SANH</i> 163: 271-273 for details of this and other records)
<i>T. berthae</i>	LC	LC	Rare	Absent	<b>SS</b> 84	
<i>T. bracteatum</i>	LC	LC	Not Scarce	Rare	<b>SS</b> 84, 93, 94; <b>ST</b> 02, 03, 12, 21, 22, 23, 32, 36	
<i>T. britannicum</i>	LC	LC	Not Scarce	Not Scarce	<b>SS</b> 84, 92, 94; <b>ST</b> 04, 11, 21, 23, 31, 45, 46, 47, 55, 57, 75	
<i>T. cambricum</i>	LC	LC	Not Scarce	Absent	<b>SS</b> 84, 94; <b>ST</b> 03, 11, 21, 22	
<i>T. celticum</i>	LC	LC	Rare	Absent	<b>SS</b> 94; <b>ST</b> 12	
<i>T. 'cestrense'</i>	[N/A]	[N/A]	Absent	Rare	<b>ST</b> 46	1981 record. Not Assessed (N/A) for either GB or England Red Lists
<i>T. chlorofrugale</i>	LC	[LC]	Rare	Absent	<b>SS</b> 84, 92	
<i>T. duplidentifrons</i>	LC	LC	Not Scarce	Scarce	<b>SS</b> 73, 84, 93, 94; <b>ST</b> 03, 11 12, ST21, 31, 36, 55, 57	VC6 records mostly pre-2000
<i>T. excellens</i>	LC	LC	Rare	Rare	<b>ST</b> 22, 55	
<i>T. fulgidum</i>	LC	LC	Rare	Absent	<b>SS</b> 94; <b>ST</b> 04	
<i>T. gelertii</i>	LC	LC	Scarce	Scarce	<b>SS</b> 73, 84, 92; <b>ST</b> 11, 21, 23, 35, 41, 57, 63, 74	VC6 records mostly pre-2000
<i>T. haematicum</i>	LC	LC	Rare	Rare	<b>SS</b> 84; <b>ST</b> 55	
<i>T. hesperium</i>	LC	LC	Rare	Rare	<b>ST</b> 03, 56, 57	VC6 records 1982

<i>T. inclinorum</i>	DD	[DD]	Rare	Absent	<b>SS 83</b>	1 <sup>st</sup> record for GB, otherwise Irish. Record not yet on MM or DDb
<i>T. landmarkii</i>	LC	LC	Rare	Absent	<b>ST 04</b>	
<i>T. nordstedtii</i>	LC	LC	Not Scarce	Not Scarce	<b>SS 73, 82, 83, 84, 92, 93, 94; ST 03, 04, 11, 12, 13, 14, 21, 22, 23, 25, 43, 44, 45, 46, 47, 54, 55, 57, 73</b>	Could include some records of other taxa only recently separated from <i>T. nordstedtii</i> 'complex'
<i>T. pietii-oosterveldii</i>	LC	[LC]	Rare	Absent	<b>SS 83</b>	A mainly Irish taxon; 3 <sup>rd</sup> record in GB
<i>T. porteri</i>	LC	LC	Rare	Absent	<b>ST 12</b>	
<i>T. subbracteatum</i>	LC	LC	Not Scarce	Scarce	<b>SS 73, 74, 82, 84, 92, 93, 94; ST 11, 12, 14, 23, 30, 46, 55</b>	VC6 records from period 1989-92
<i>T. tamesense</i>	LC	LC	Absent	Rare	<b>ST 57</b>	1992 record
<i>T. unguilobum</i>	LC	LC	Rare	Rare	<b>SS 83, 84, 94</b>	
<b>s. Erythrosperma</b>						
<i>T. arenastrum</i>	LC	LC	Rare	Rare	<b>ST 04, 35</b>	VC6 record 1992
<i>T. argutum</i>	LC	LC	Scarce	Absent	<b>SS 74, 84, 94; ST 22</b>	
<i>T. brachyglossum</i>	LC	LC	Scarce	Rare	<b>SS 84, 94; ST 04, 13, 24, 36, 46, 47, 57</b>	
<i>T. degelii</i>	LC	LC	Rare	Rare	<b>SS 84, 94; ST 32, 36</b>	Any more records in VC5 would make it 'Scarce' in that vice-county
<i>T. disseminatum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 04</b>	
<i>T. fulviforme</i>	LC	LC	Scarce	Rare	<b>SS 84, 94; ST 03, 04, 12, 22, 23, 36</b>	
<i>T. fulvum</i>	LC	LC	Scarce	Rare	<b>SS 94; ST 03, 04, 22, 24, 25, 62, 65</b>	
<i>T. glauciniforme</i>	LC	LC	Rare	Rare	<b>SS 94; ST 04, 57, 76</b>	
<i>T. haworthianum</i>	LC	LC	Rare	Rare	<b>SS 94; ST 25, 36</b>	ST25 record 1975
<i>T. lacistophyllum</i>	LC	LC	Scarce	Not Scarce	<b>SS 84, 94; ST 04, 25, 33, 34, 35, 36, 46, 57, 62, 66</b>	VC6 records mainly pre-2000
<i>T. oxoniense</i>	LC	LC	Not Scarce	Not Scarce	<b>SS 84, 94; ST 03, 04, 11, 13, 22, 23, 24, 25, 26, 33, 34, 35, 36, 43, 45, 46, 47, 52, 55, 56, 57, 62, 63, 76</b>	
<i>T. parnassicum</i>	LC	LC	Rare	Absent	<b>ST 04</b>	
<i>T. proximiforme</i>	[LC]	LC	Rare	Absent	<b>ST 24</b>	
<i>T. proximum</i>	LC	LC	Scarce	Rare	<b>SS 84, 94; ST 03, 04, 47, 56</b>	VC6 records are pre-2000

<i>T. retzii</i>	LC	LC	Rare	Absent	<b>ST</b> 04, 11	GB status was DD, changed to LC in April 2021
<i>T. rubicundum</i>	LC	LC	Rare	Not Scarce	<b>SS</b> 94; <b>ST</b> 11, 14, 25, 35, 36, 43, 45, 47, 74	
<i>T. scoticum</i>	LC	LC	Absent	Rare	<b>ST</b> 36	1983 record
<b>s. Hamata</b>						
<i>T. atactum</i>	LC	LC	Not Scarce	Scarce	<b>SS</b> 73, 84, 94; <b>ST</b> 03, 04, 12, 14, 23, 36, 47, 56, 57	
<i>T. boekmanii</i>	LC	LC	Not Scarce	Scarce	<b>SS</b> 84, 92, 94; <b>ST</b> 03, 04, 11, 12, 21, 22, 25, 36, 40, 47, 57, 63	
<i>T. fusciflorum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 04	
<i>T. hamatiforme</i>	LC	LC	Scarce	Absent	<b>SS</b> 73, 84, 93; <b>ST</b> 11, 12, 21, 32	No records for VC6! Surely overlooked?
<i>T. hamatululum</i>	LC	LC	Scarce	Scarce	<b>SS</b> 84, 94; <b>ST</b> 04, 13, 21, 25, 35, 36, 46, 47	
<i>T. hamatum</i>	LC	LC	Not Scarce	Not Scarce	<b>SS</b> 84, 92, 93, 94; <b>ST</b> 04, 12, 21, 22, 23, 35, 36, 40, 46, 47, 55, 56, 57, 66, 74	Many VC6 records are from 1980s/90s
<i>T. hamiferum</i>	WL	[WL]	Scarce	Scarce	<b>SS</b> 84, 94; <b>ST</b> 03, 04, 11, 12, 22, 23, 35, 36, 44, 46, 47, 54, 57	
<i>T. kernianum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 03	
<i>T. lamprophyllum</i>	WL	[WL]	Scarce	Rare	<b>SS</b> 84, 94; <b>ST</b> 03, 21, 40, 47	VC6 records are pre-2000
<i>T. lancidens</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 03, 12	
<i>T. marklundii</i>	LC	LC	Not Scarce	Rare	<b>SS</b> 82, 84, 94; <b>ST</b> 02, 04, 12, 21, 34, 41, 46, 57	On verge of being 'Scarce' in VC6
<i>T. prionum</i>	[Alien]	[Alien]	Rare	Absent	<b>SS</b> 84; <b>ST</b> 22	
<i>T. pruinatum</i>	WL	[WL]	Rare	Absent	<b>SS</b> 94; <b>ST</b> 12	
<i>T. pseudohamatum</i>	LC	LC	Not scarce	Not Scarce	<b>SS</b> 82, 84, 93; <b>ST</b> 04, 11, 12, 22, 31, 35, 36, 40, 44, 46, 47, 56, 57, 75	
<i>T. quadrans</i>	[Alien]	[Alien]	Absent	Rare	<b>ST</b> 36, 46	ST46 record was 1992
<i>T. sahalinianum</i>	LC	LC	Scarce	Rare	<b>SS</b> 84, 92, 94; <b>ST</b> 12, 36	
<i>T. subericinum</i>	WL	[WL]	Rare	Absent	<b>ST</b> 04	1st GB record outside VC4
<i>T. subhamatum</i>	LC	LC	Scarce	Scarce	<b>SS</b> 74, 82, 84; <b>ST</b> 23, 45, 46, 47	VC6 records pre-2000

<b>s. Naevosa</b>						
[ <i>T. drucei</i> ]	LC	LC	Absent	Absent	[ST 11]	A single 1985 record, in ST11, but this refers to what was subsequently described as new species, <i>T. ronaе</i> . Record has been removed from DDb (A.J. Richards pers. comm.)
<i>T. euryphyllum</i>	LC	LC	Rare	Absent	SS 84, 93	
[ <i>T. maculosum</i> ]	LC	LC	Absent	Absent	[ST 22]	A single 1914 record, in ST22, but now regarded as erroneous, or possibly refers to what was subsequently described as new species, <i>T. ronaе</i> (A.J. Richards pers. comm.)
<i>T. richardsianum</i>	LC	LC	Rare	Rare	SS 93; ST 45, 77	RDR's records in VC6 still to be added to MM and DDb (details in SANH 161: 314)
<i>T. ronaе</i>	LC	LC	Rare	Absent	SS 84, 94; ST 11, [22 (?)]	Includes what was previously ascribed to <i>T. drucei</i> and (probably) <i>T. maculosum</i> . Unverified recent record for ST 22 – needs further collection to confirm
<i>T. stictophyllum</i>	LC	LC	Rare	Absent	SS 84	
<b>s. Palustria</b>						
[ <i>T. palustre</i> ]	LC	VU	Absent	Absent	[SS 84, 94]	Records for Exmoor (1980s) are considered by A.J. Richards to be errors and none of the records have ever been confirmed. They have been removed from the DDb. NB: there are good records of <i>T. palustre</i> from N. Devon and W. Gloucs
<b>s. Spectabilia</b>						
<i>T. faeroense</i>	LC	LC	Not Scarce	Scarce	SS 73, 74, 83, 84, 94; ST 02, 03, 11, 44, 65, 73	VC6 records mainly pre-2000
<b>s. Obliqua</b>						
<i>T. platyglossum</i>	LC	DD	Absent	Rare	ST 25	Sole VC6 record was 1949, possibly extinct?

<b>s. Ruderalia</b>						
<i>T. acroglossum</i>	[Alien]	[Alien]	Rare	Absent	ST 03, 04, 22	
<i>T. acutifrons</i>	[Alien]	[Alien]	Scarce	Rare	SS 82; ST 03, 12, 14, 51, 57	VC6 records pre-2000
<i>T. adiantifrons</i>	[Alien]	[Alien]	Rare	Absent	ST 03	Record not yet on MM or DDb
<i>T. aequisectum</i>	[Alien]	[Alien]	Rare	Absent	ST 04	
<i>T. aequilobum</i>	[Alien]	[Alien]	Scarce	Absent	SS 84, 94; ST 04, 12, 22	
<i>T. alatum</i>	[Alien]	[Alien]	Scarce	Rare	SS 84; ST 11, 12, 22, 33, 55	
<i>T. amplum</i>	[Alien]	[Alien]	Rare	Absent	SS 92; ST 22	
<i>T. ancistrolobum</i>	LC	LC	Scarce	Rare	SS 94; ST 04, 11, 22, 23, 36, 76	
<i>T. angulare</i>	[Alien]	[Alien]	Rare	Absent	SS 94	
<i>T. angustisquameum</i>	[Alien]	[Alien]	Rare	Rare	ST 04, 55, 57	VC6 records pre-2000
<i>T. aurosulum</i>	[Alien]	[Alien]	Rare	Absent	ST 11, 22	Pre-2000 records only
<i>T. chrysophaenum</i>	[Alien]	[Alien]	Rare	Absent	SS 74; ST 04	
<i>T. coartatum</i>	LC	[Alien]	Rare	Absent	SS 84	LC in GB Red List, but Not Assessed in England Red List as a presumed neophyte!
<i>T. cordatum</i>	LC	LC	Rare	Scarce	ST 04, 22, 25, 33, 34, 45, 51, 56	VC6 records all pre-2000
<i>T. cophocentrum</i>	LC	LC	Scarce	Rare	SS 84, 94; ST 03, 04, 12, 21, 22, 45	
<i>T. corynodes</i>	[Alien]	[Alien]	Rare	Absent	ST 12	
<i>T. croceiflorum</i>	LC	[Alien]	Scarce	Rare	ST 04, 21, 22, 46, 56	LC in GB Red List, but Not Assessed in England Red List as a presumed neophyte!
<i>T. curtifrons</i>	[Alien]	[Alien]	Absent	Rare	ST 36	
<i>T. cyanolepsis</i>	LC	[Alien]	Absent	Rare	ST 46	1983 record. LC in GB Red List, but Not Assessed in England Red List as a presumed neophyte!
<i>T. dahlstedtii</i>	LC	LC	Rare	Absent	SS 73, 94	= <i>T. stenoglossum</i> . SS94 record is 1978
<i>T. densilobum</i>	[Alien]	[Alien]	Rare	Absent	SS 84; ST 22	
<i>T. diastematicum</i>	[Alien]	[Alien]	Rare	Absent	ST 04	
<i>T. dilaceratum</i>	[Alien]	[Alien]	Rare	Rare	SS 93; ST 22, 36	
<i>T. dilatatum</i>	LC	LC	Rare	Rare	ST 22, 47	VC6 record 1990
<i>T. edmondsonianum</i>	LC	LC	Rare	Absent	ST 04, 12, 22	
<i>T. ekmanii</i>	WL	[WL]	Scarce	Rare	SS 84, 94; ST 12, 22, 23, 36, 46, 57	

<i>T. exacutum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 04</b>	
<i>T. expallidiforme</i>	WL	[WL]	Scarce	Scarce	<b>SS 84, 94; ST 04, 12, 21, 35, 41, 57, 64</b>	Most VC6 records are pre-2000
<i>T. exsertiforme</i>	[Alien]	[Alien]	Rare	Rare	<b>ST 03, 04, 36</b>	VC6 record 1992
<i>T. fasciatum</i>	WL	[WL]	Absent	Rare	<b>ST 36, 57</b>	Records not on DDb, ST57 record was 1925
<i>T. hepaticum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 22</b>	Records not yet on MM or DDb
<i>T. horridifrons</i>	[Alien]	[Alien]	Rare	Absent	<b>SS 94; ST 12</b>	
<i>T. huelphersianum</i>	[Alien]	[Alien]	Rare	Absent	<b>SS 94</b>	
<i>T. incisum</i>	[Alien]	[Alien]	Scarce	Absent	<b>SS 84; ST 03, 04, 22</b>	
<i>T. insigne</i>	LC	[Alien]	Rare	Absent	<b>SS 84; ST 24</b>	LC in GB Red List, but Not Assessed in England Red List as a presumed neophyte!
<i>T. interveniens</i>	[Alien]	[Alien]	Rare	Rare	<b>ST 04, 22, 36, 57</b>	VC6 records pre-2000
<i>T. intumescens</i>	[Alien]	[Alien]	Rare	Rare	<b>ST 03, 36, 57</b>	VC6 records pre-2000 (1983 and 1985)
<i>T. lacerifolium</i>	[Alien]	[Alien]	Scarce	Absent	<b>SS 84, 94; ST 03, 04, 12, 22</b>	Only VC6 record in DDb is for ST57 in 1990, but record is from "ST5872 on N bank of R. Avon", so NOT in VC6 – this record needs amending on DDb
<i>T. lacinosifrons</i>	WL	[WL]	Rare	Rare	<b>ST 22, 45</b>	VC6: ST45 record is 1983
<i>T. laeticolor</i>	[Alien]	[Alien]	Rare	Rare	<b>SS 82; ST 04, 22, 57</b>	VC6: ST57 record is 1989
<i>T. laticordatum</i>	LC	LC	Scarce	Rare	<b>SS 92, 94; ST 22, 55</b>	VC6: ST55 record is 1992
<i>T. latissimum</i>	[Alien]	[Alien]	Rare	Rare	<b>SS 84; ST 76</b>	VC6: ST76 record is 1989
<i>T. lepidum</i>	WL	[WL]	Rare	Absent	<b>SS 92, 94</b>	
<i>T. leucopodium</i>	[Alien]	[Alien]	Rare	Absent	<b>SS 94; ST 22</b>	
<i>T. lingulatum</i>	LC	[Alien]	Rare	Rare	<b>SS 84; ST 04, 25</b>	VC6: ST25 record is 1983. Not included in England Red List as a presumed neophyte?
<i>T. longisquameum</i>	LC	[Alien]	Rare	Absent	<b>SS 92; ST 22</b>	ST22 record is 1978. Not included in England Red List as a presumed neophyte?
<i>T. lucidum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 22</b>	Thurlbear Wood: AJR thinks this record strengthens case for this taxon being considered possibly native
<i>T. macranthoides</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 22</b>	
<i>T. macrolobum</i>	[Alien]	[Alien]	Rare	Absent	<b>SS 84</b>	
<i>T. margettsii</i>	LC	LC	Rare	Absent	<b>ST 21</b>	Staple Hill. Was originally listed in GB Red List as DD
<i>T. melanthoides</i>	LC	LC	Rare	Absent	<b>ST 11</b>	The Quants

<i>T. mimulum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 04</b>	
<i>T. multicolorans</i>	[Alien]	[Alien]	Rare	Scarce	<b>ST 22, 24, 36, 46, 47, 55</b>	VC6 records all pre-2000
<i>T. necessarium</i>	WL	[WL]	Rare	Rare	<b>SS 94; ST 22, 43</b>	
<i>T. nigridentatum</i>	LC	LC	Rare	Rare	<b>SS 94; ST 22, 23, 55</b>	VC5 records not yet on MM or DDb
<i>T. nitidum</i>	[Alien]	[Alien]	Rare	Rare	<b>ST 04, 67</b>	VC6 record is from 1992
<i>T. obliquilobum</i>	[Alien]	[Alien]	Rare	Absent	<b>SS 84</b>	
<i>T. oblongatum</i>	LC	LC	Scarce	Scarce	<b>SS 84, 94; ST 03, 04, 22, 43, 44, 56, 57</b>	VC6: under-recorded, only 1 post-2000 record
<i>T. obtusifrons</i>	[Alien]	[Alien]	Scarce	Absent	<b>SS 74, 84; ST 12, 22</b>	
<i>T. ochrochlorum</i>	[Alien]	[Alien]	Absent	Rare	<b>ST 46</b>	Sole record is from 1992
<i>T. pachylobum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 22</b>	
<i>T. pallescens</i>	[Alien]	[Alien]	Rare	Rare	<b>SS 84, 94; ST 22, 57</b>	VC6 record is from 1992
<i>T. pallidipes</i>	[Alien]	[Alien]	Scarce	Rare	<b>SS 82, 94; ST 03, 04, 12, 76</b>	RDR's record in VC6 (ST76) still to be added to MM and DDb (details in <i>SANH</i> 161: 314)
<i>T. pannucium</i>	[Alien]	[Alien]	Rare	Absent	<b>ST 03</b>	
<i>T. pannulatiforme</i>	LC	[Alien]	Rare	Rare	<b>ST 11, 12, 46</b>	ST11 and ST46 records are pre-2000. Not included in England Red List as a presumed neophyte?
<i>T. pannulatum</i>	[Alien]	[Alien]	Scarce	Rare	<b>SS 94; ST 12, 21, 22, 23, 57</b>	VC6 record is from 1992
<i>T. pectinatiforme</i>	[Alien]	[Alien]	Rare	Rare	<b>SS 94; ST 43</b>	VC6 record is from 1976
<i>T. piceatum</i>	[Alien]	[Alien]	Rare	Rare	<b>SS 84; ST 04, 24, 46</b>	VC6 record is from 1983
<i>T. planum</i>	[Alien]	[Alien]	Rare	Absent	<b>SS 84</b>	
<i>T. polyodon</i>	LC	LC	Rare	Rare	<b>ST 03, 21, 36, 57</b>	
<i>T. porrigens</i>	[Alien]	[Alien]	Absent	Rare	<b>ST 46, 57</b>	VC6 records pre-2000
<i>T. procerisquameum</i>	[Alien]	[Alien]	Absent	Rare	<b>ST 36</b>	Sole record is from 1983
<i>T. pulchrifolium</i>	[Alien]	[Alien]	Not Scarce	Rare	<b>SS 84, 92; ST 03, 04, 11, 12, 22, 44</b>	Quite frequent in some areas of VC5, probably under-recorded in VC6
<i>T. remanentilobum</i>	[Alien]	[Alien]	Absent	Rare	<b>ST 57</b>	Sole record is from 1992
<i>T. rhamnoides</i>	[Alien]	[Alien]	Rare	Rare	<b>SS 93; ST 04, 22, 57</b>	VC6 record is from 1992
[ <i>T. sagittipotens</i> ]	LC	LC	Absent	Absent	<b>[ST 22]</b>	A single recent VC5 record in ST22 (specimen in <b>TTN</b> ) is questionable and requires further collection to confirm identity!

<i>T. sellandii</i>	LC	LC	Not Scarce	Rare	<b>SS</b> 74, 84, 92, 94; <b>ST</b> 04, 12, 22, 56	VC6 record is from 1991
<i>T. semiglobosum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 12	
<i>T. sinuatum</i>	LC	LC	Rare	Absent	<b>ST</b> 04, 22	
<i>T. stenacrum</i>	LC	LC	Scarce	Absent	<b>SS</b> 84; <b>ST</b> 04, 12, 22	
<i>T. subcyanolepis</i>	WL	[WL]	Rare	Rare	<b>ST</b> 22, 25	2 records, 1978 and 1983
<i>T. subexpallidum</i>	[Alien]	[Alien]	Scarce	Rare	<b>ST</b> 04, 22, 31, 57	Frequent in Taunton area, possibly under-recorded (and certainly under-collected)
<i>T. subhuelphersianum</i>	[Alien]	[Alien]	Absent	Rare	<b>ST</b> 76	RDR's record in VC6 (ST76) still to be added to MM and DDb (details in <i>SANH</i> 161: 315)
<i>T. sublaeticolor</i>	LC	LC	Scarce	Rare	<b>SS</b> 94; <b>ST</b> 04, 12, 14, 57	VC6 record is from 1992
<i>T. sublongisquameum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 22	
<i>T. subxanthostigma</i>	[Alien]	[Alien]	Rare	Rare	<b>ST</b> 04, 21, 22, 44	
<i>T. sundbergii</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 21, 22	VC5 records not entered on MM (species id not in MM spp dictionary), so not on DDb yet
<i>T. tanyphyllum</i>	[Alien]	[Alien]	Absent	Rare	<b>ST</b> 45	Sole record is from 1980
<i>T. tenebricans</i>	[Alien]	[Alien]	Rare	Rare	<b>SS</b> 94; <b>ST</b> 04, 57	VC6 record is from 1992
<i>T. trilobatum</i>	[Alien]	[Alien]	Not Scarce	Rare	<b>SS</b> 84, 94; <b>ST</b> 03, 12, 21, 22, 44	Quite frequent in some areas, so unlikely to be Scarce in VC5, probably under-recorded in VC6
<i>T. tumentilobum</i>	[Alien]	[Alien]	Scarce	Rare	<b>SS</b> 73, 94; <b>ST</b> 04, 21, 22, 46	
<i>T. undulatum</i>	LC	LC	Scarce	Rare	<b>SS</b> 94; <b>ST</b> 04, 11, 12, 21, 22, 63	Possibly 'Not Scarce' in VC5 as in 8 sites and certainly under-recorded!
<i>T. undulatiflorum</i>	[Alien]	[Alien]	Rare	Rare	<b>ST</b> 04, 22, 40, 46, 57	All records pre-2000
<i>T. valens</i>	[Alien]	[Alien]	Rare	Rare	<b>SS</b> 94; <b>ST</b> 43, 64	ST43 record (Eric Philp) on DDb but without date!
<i>T. vastisectum</i>	[Alien]	[Alien]	Rare	Absent	<b>ST</b> 11, 22	
<i>T. xanthostigma</i>	WL	[WL]	Scarce	Absent	<b>SS</b> 84, 94; <b>ST</b> 03, 04, 22	
<b>Additional taxa recorded from neighbouring counties/regions, but not so far recorded from Somerset – ones to look out for!</b>
